

resident and family update: covid-19 outbreak

January 8, 2021

Dear residents and families,

We are sorry to report that we have a confirmed COVID-19 outbreak at Evanston Summit. – There is one staff member who has tested positive. This staff member was last at work on January 5th in the dining room. We have notified public health and they are beginning the process to trace who this individual may have been in contact with. Our whole team is diligent about wearing mandatory personal protective equipment including masks and eye protection.

This is difficult news.

We are doing everything we can to contain any transmission and keep everyone safe and healthy. We have implemented further protocols to minimize risk of spread. These include:

- Meals will be served in suites temporarily
- All activities have been cancelled
- All common area spaces are closed.
- We are taking all direction from public health, including asymptomatic COVID 19 testing. We will be sharing information as it becomes available

Residents, if you are not feeling well please notify the concierge immediately. Please refrain from going out in public unless absolutely necessary, practice social distancing within the centre keeping at least 10 feet from others, and wash your hands frequently with soap and warm water. Please continue to meet for virtual visits. It is so important that you connect with and support each other.

We will continue to be in touch. Please direct questions to your Site Manager – Carrie Erickson at 587-583-7511 or send them to us at admin@covenantliving.ca. For the most recent information on the pandemic please see ahs.ca/COVID.

Please stay healthy and well,

Derrick Bernardo
President
